

1. Example of screen arrangement with target and competitor location which was swapped for different subject groups.

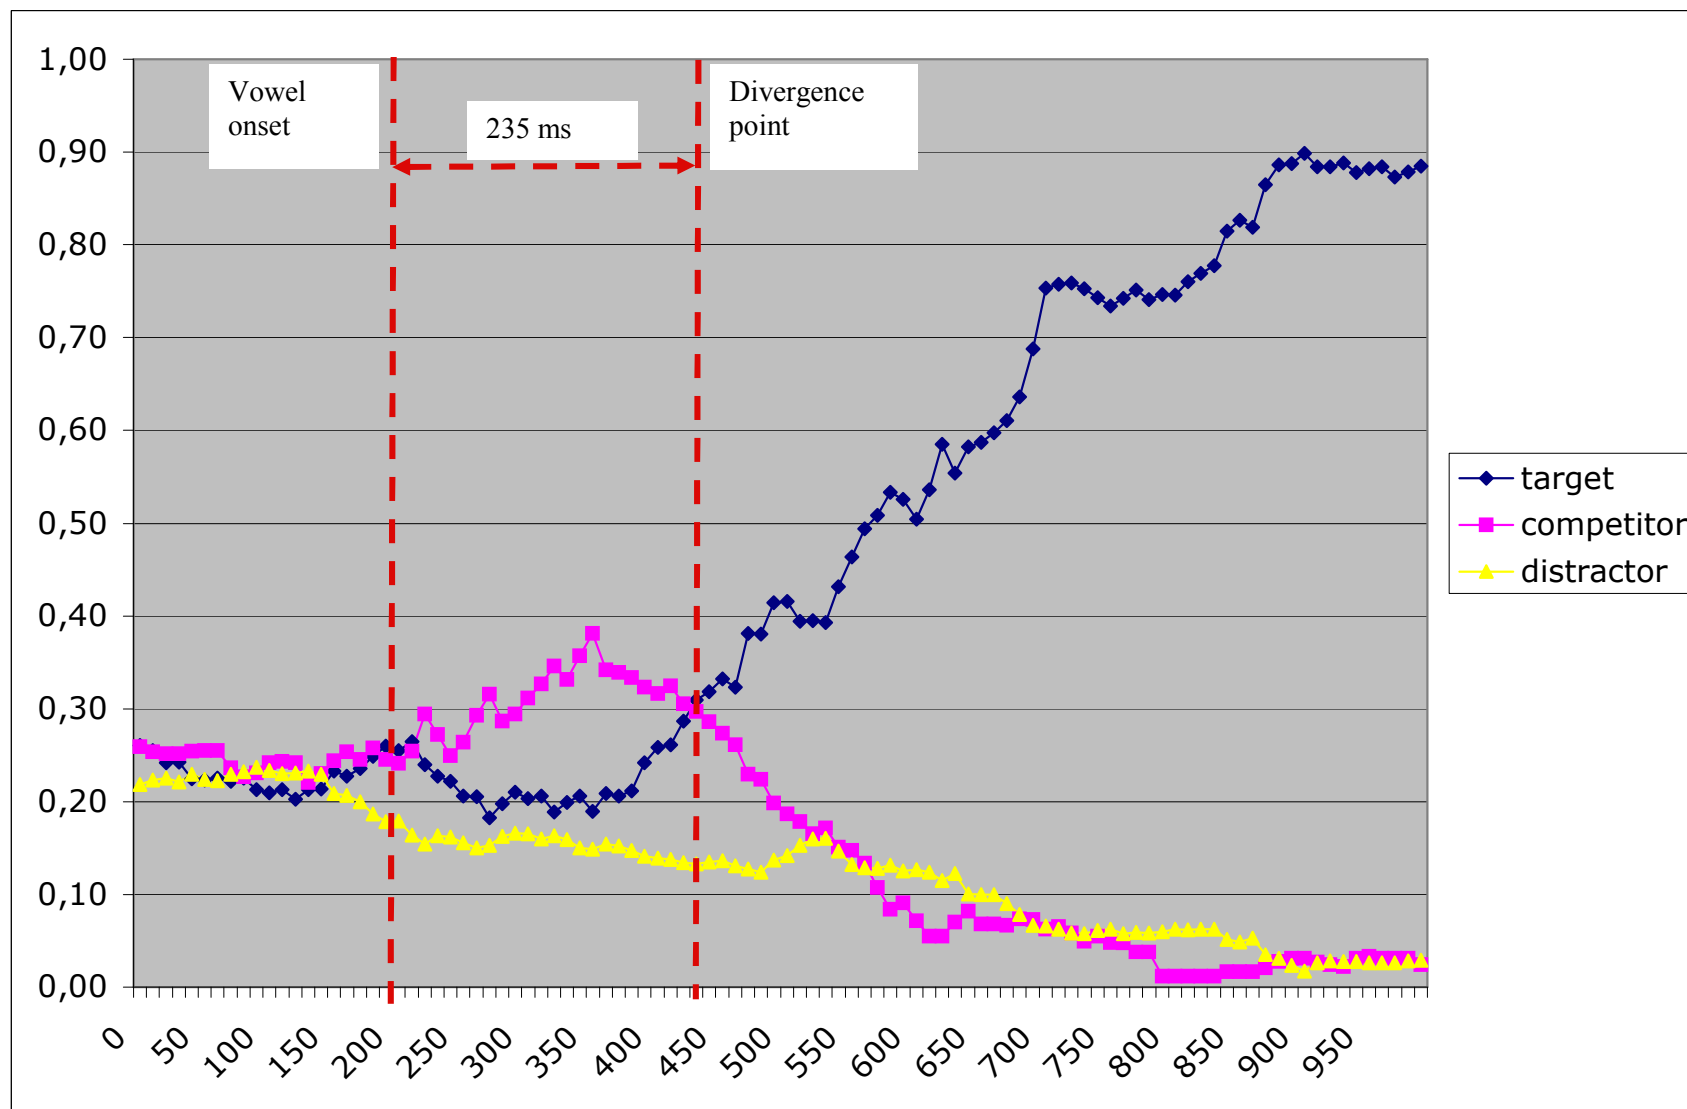

2. Average fixation curves for words with *unrounded* vowel onsets

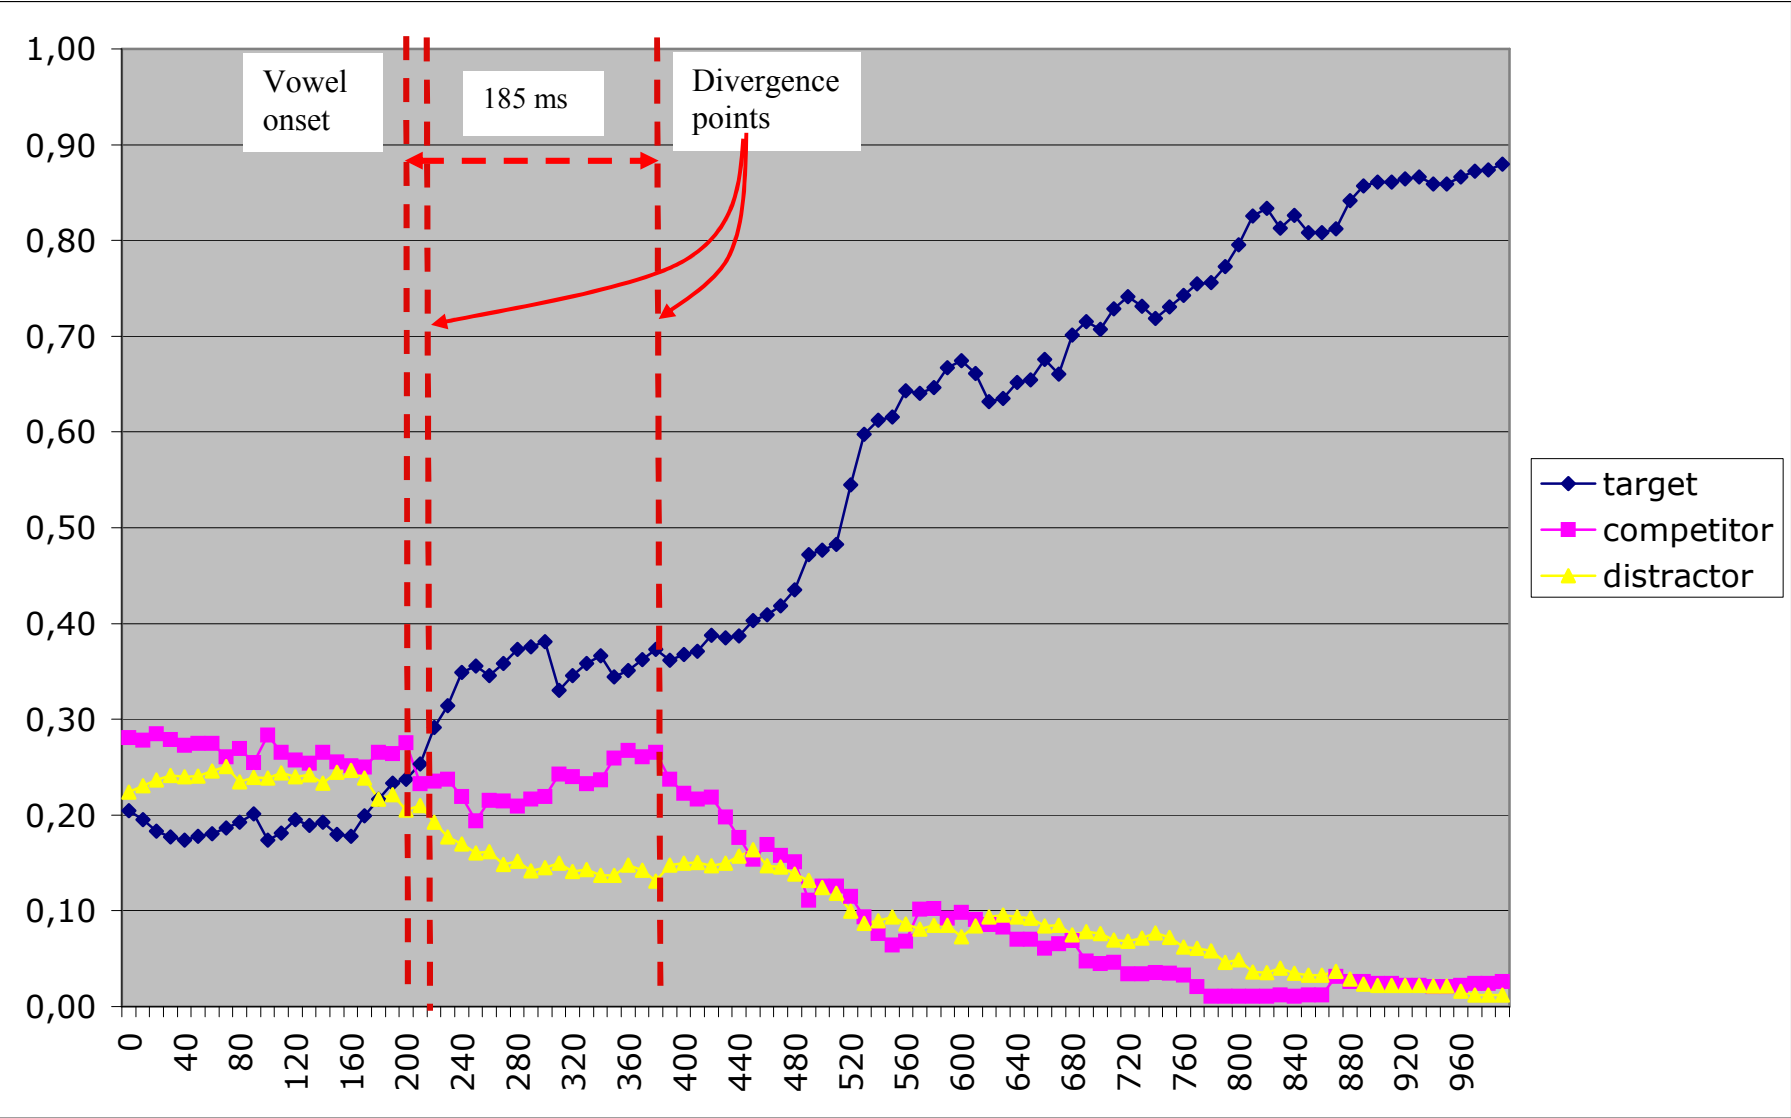

3. Average fixation curves for words with *rounded* vowel onsets

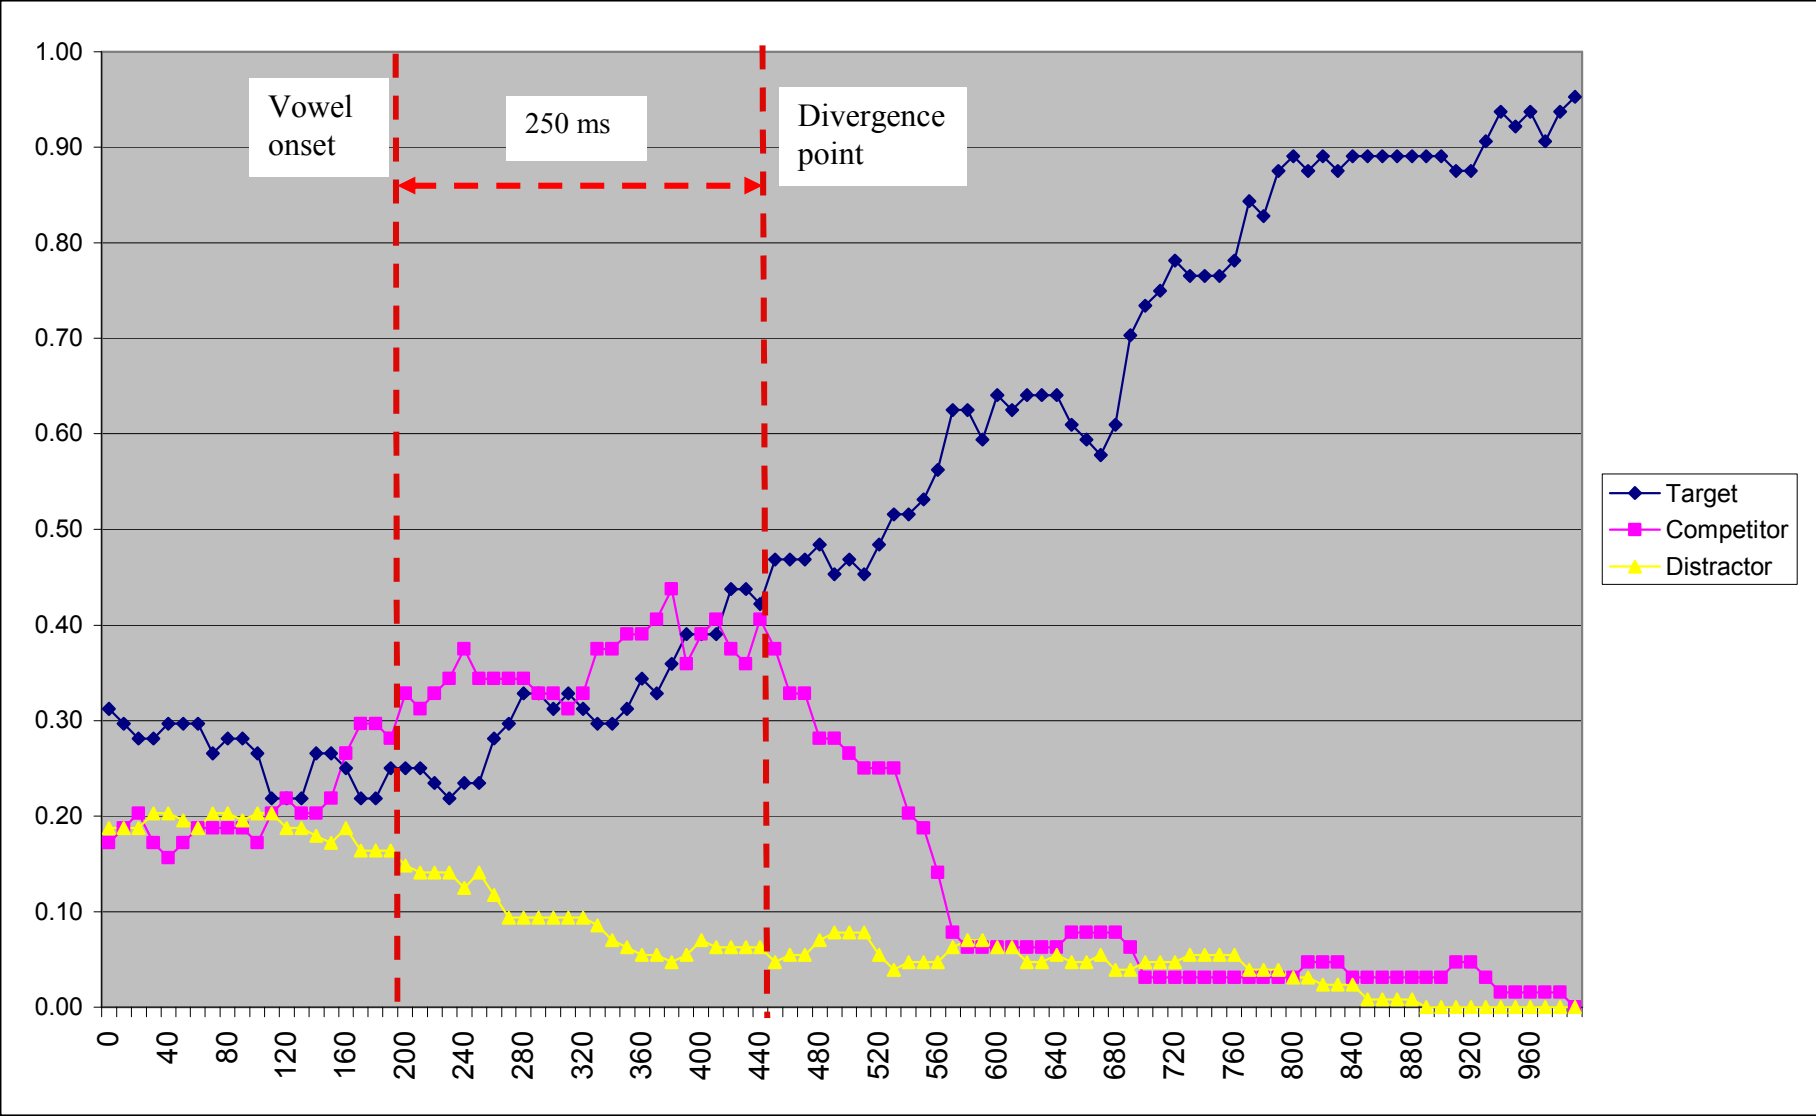

4. Average fixation curves for  $\text{VCV}$  words with *unrounded* vowels

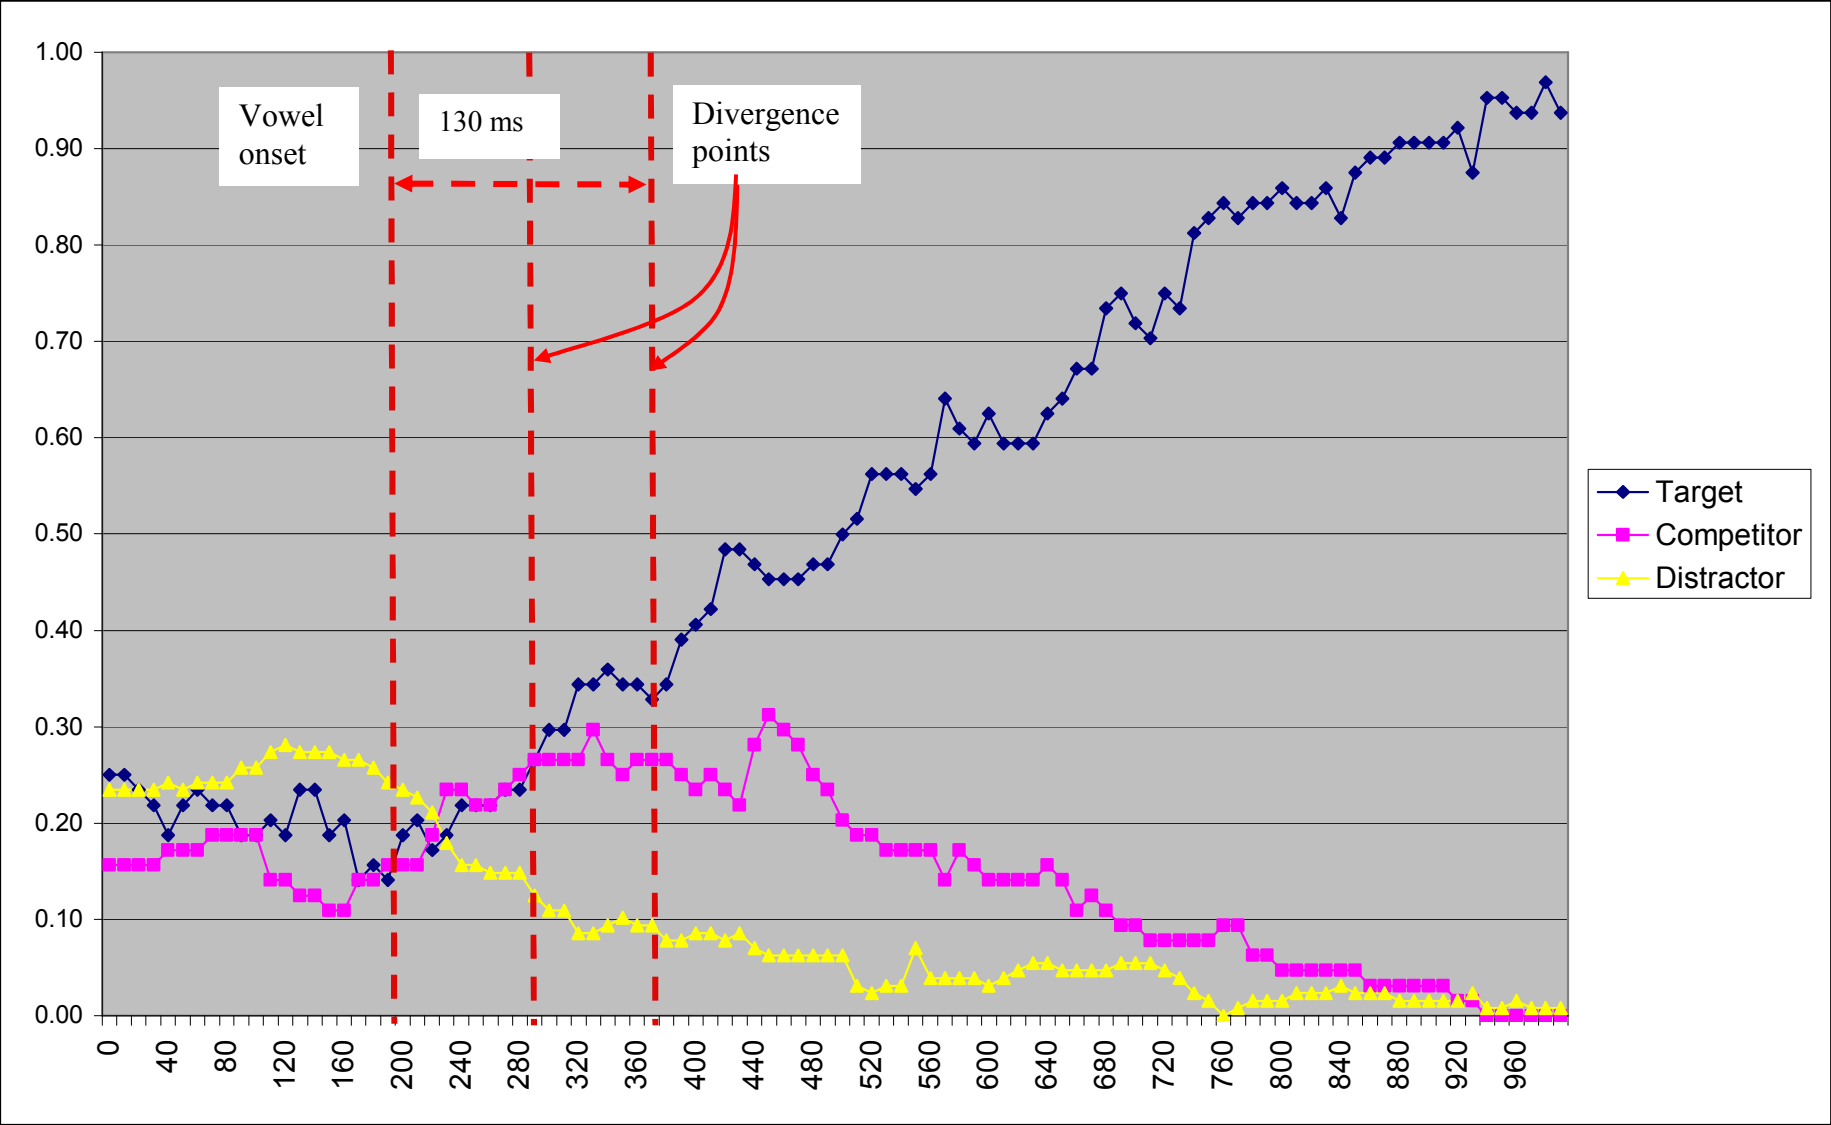

5. Average fixation curves for  $\int$ CV words with *rounded* vowels

6. Average fixation curves for JCCV words with *unrounded* vowels

7. Average fixation curves for JCCV words with *unrounded* vowels

8. Pilot-experiment results: Significant stimulus-type subgroupings

Significantly different sub-groups (Tukey post-hoc)

	1	2	3
